Project X Project X: Love Potion Disaster is a Hentai side scroll featuring characters from SEGA Sonic the Hedgehog and fans from the zeta team development team, led by NeoEclipse and Zeta R-02. This game is not produced or licensed by SEGA. As a game hentai it is not suitable for those under the age of 18. The official homepage of this project Due to recent attacks, anyone wishing to edit wiki pages will need to ask permission on Project X forums: Player was captured by Dr. Eggman, along with several other mobians, during one of his intrusions. Unfortunately, Pili and Miles, two of Dr. Akari's assistants who are working on a secret love potion project, accidentally throw too much Pheromon Dr. Akari into their concoction when their object rumbles from the chaos Dr. Eggman flows onto the town. The project banishes the love cloud of potions around the world. With hormones frantic with unprecedented speed, and many of the world's incapacitated heroes it's up to the player to get to the source of the issue and save everyone from an unusual fate. The game has a simple control scheme: two buttons for attacks, one for jumping and controlling traffic. Certain combinations of joysticks or buttons can force a character to perform a slide or dash of attack, stationary attack, aerial attack, area attack, or special attack. The game also has a quick event time to avoid some attacks from enemies. History mode in story mode, players will guide the characters through a number of levels: Egg Argonaut, Leaf Forest, Atlantis Ruins, Pumpkin Kingdom, Lost World, Mewfertiis Park, Nova City, and Delta Labs, who will have the player cross the world and face enemies from the Sonic universe and original enemies. Arena Mode in arena mode, the player battles enemies in gradually increasing waves of difficulty, eventually having to face powerful versions of the boss. The player gets rest between the waves, and the recovery elements sometimes appear between the waves, and also give the player a break that can be used immediately or saved until necessary. Boss Rush It's like Arena Mode, except that you'll be fighting against the stage bosses of Story Mode in the order of their performances. Stage Select Simply allows the player to skip the levels and move on to a certain stage. The gallery allows the player to view all the capture animations from smaller enemies. Boss Gallery It's like the Gallery, except that it pits the player in the fight against the boss of his choice and gives the player the endless health that allows them to expose themselves to fight attacks as often as they like without losing. The sound test allows the player to listen to the various music found in the game while one choice of character dances seductively. Alex Ramirez Updated September 22, 2017 Project X: Love Potion Disaster is a fan game that is set in the fictional universe of Sonic hedgehog and stars female characters of the game. In addition to the game's full, eponymous game mode, which features the heroine of the game save the world from Dr. Robotnik, users can unlock a gallery that contains lots of screenshots and videos of each character, all of which were created by the game's developer. Kick the game five times with any combination of characters. After the game is over, the gallery will be unlocked for the fifth time. Go to the main menu of the game. The new option, the Art Gallery, will be displayed. Click on Art Gallery to view all the screenshots and videos created by the game's developer. Zeta\_R-02 Digital Artist Member C.
