What are the best romance books on wattpad

Photo Courtesy: Goodreads Chances are you've already watched Bridgerton on Netflix. A record 82 million households saw the first season of Julia Quinn's romance novel adaptation in its first 28 days, making it Netflix's most-watched show. We understand if you're feeling a little forlorn now. Season two of Bridgerton is still far away — production isn't expected to start until Spring 2021! Fortunately, we have an excellent list of other movies and TV shows suitable for Lady Whistledown's acolytes to keep you swooning. We also have some reading recommendations. Bridgerton has proved we need more film and TV adaptations of the romantic genre. Here are some romance books we'd love to get the Bridgerton treatment.Contemporary RomancesRomance is one of those literary genres that doesn't necessarily receive a lot of respect. Yet, according to the Romance Writers of America (RWA), in 2016 "romance made up 23% of the overall U.S. fiction market." The New York Times estimates there are about 10,000 romance novels published each year. That's a lot of titles to choose from in a genre usually defined by its central love stories and Happily Ever After (HEA) or Happily For Now (HFN) endings. Photo Courtesy: Goodreads Let's start with some options in the contemporary subgenre. The good news is some books in this category are already being adapted. That's the case for Helen Hoang's The Kiss Quotient and Sally Thorne's The Hating Game. But we'd love to see adaptations of three titles that made the top positions of Goodreads' Most Popular Romances of the Past Three Years list. I'm talking about Casey McQuiston's Red, White & Royal Blue, which details the secret relationship between U.S. First Son Alex and the U.K.'s Prince Henry. I'm also talking about Emily Henry's Beach Read, about a couple of professional writers and sort-of frenemies who end up sharing contiguous houses...and something else. There's also The Wedding Date by Jasmine Guillory, which follows the lives of two high-achieving professionals who end up going to a wedding together. I also need to talk about Alyssa Cole's Reluctant Royals series here. The five books of the series have some of the classic genre tropes — princes, dukes, Scottish grumps, reluctant attractions — but also a contemporary setting and a very diverse set of central couples. Cole is a prolific author specializing in inclusive romantic stories from different genres. Her Civil War-set romance An Extraordinary Union has espionage ingredients and would also make for a very enticing adaptation. Talia Hibbert is another writer of a prolific nature. Her Brown Sisters series features three titles starring each one of the Brown sisters and their interracial relationships. For a more young adult-friendly read, try Leah Johnson's You Should See Me in a Crown, which won the YA Romance category of the readers-based 2020 Swoon Awards and tells the tale of Indiana teenager Liz and her plan to become prom queen to get a college scholarship. Another Swoonie winner, this one in the contemporary category, is Alexis Hall's Boyfriend Material. It follows the story of Luc, the son of a couple of rock stars, and his search for the perfect publicity-friendly boyfriend to clean up his public image.Historical RomancesI've already pointed out Cole's An Extraordinary Union, but there are many other options for those who prefer their romances with a helping of corsets and afternoon teas. Photo Courtesy: Goodreads Let's add to this list Beverly Jenkins' Indigo. This one comes as a recommendation of NPR's Code Switch podcast and emphasizes the importance of having historical romances written from the perspective of Black writers and starring Black characters. Indigo is set before the Civil War in the world of the Underground Railroad and tells the love story between two of its conductors. If you like your historical romances with a considerable side of mystery, try Deanna Raybourn's Veronica Speedwell series. The books follow the independent lepidopterist Veronica and the brooding taxidermist Stoker. They form the most unlikely pair of amateur detectives in 1887 London. This series would make for the perfect will they/won't they TV adaptation. Since we're talking about series, let's bring up Olivia Waite's Feminine Pursuits. The series' first book, The Lady's Guide to Celestial Mechanics, is set in 1816 London and describes the adventures of the aspiring astronomer Lucy falling for the widowed countess who's hired her to translate an astronomy book. And allow me to add the excellently written indie The Widow of Rose House by Diana Biller. Set in 1875 New York, it features a scandalous widow, a haunted mansion and a very unconventional scientist. It also adds a dose of paranormal to the whole period setting.Fantasy RomancesLet's talk about the fantastic side of romance, which in a way combines the best from historical and contemporary romance and makes its own rules. Photo Courtesy: Goodreads V.E. Schwab's The Invisible Life of Addie LaRue would make for a perfect miniseries. It spans 300 years in the life of Addie, an extraordinary creature who doesn't age but is cursed to be eternally forgotten by everyone — until she finds a man in a bookstore who remembers her name. Prepare to decipher some mythology — this one involving maidens, wolvens and vampyrs — with Jennifer L. Armentrout's Blood and Ash series. In it, we learn the story of Poppy, who by age 18 has become an accomplished hand-to-hand fighter and archer living in an oppressive society. Like any good coming-of-age romance, Poppy is set on experiencing and choosing what to do with her life. And let's end with another series that would make for an irresistible TV show adaptation: Sarah J. Maas' A Court of Thorns and Roses. It has faeries, a magical kingdom and an independent heroine. It's also the kind of coming-of-age story that's equally appealing to an older audience. Be warned, though: fantasy romance series can be highly addictive. We left many, many titles out. If you're looking for more romance novel inspirations to satiate your Bridgerton cravings, check out some of the compilations Goodreads put together for Romance Week 2021 or browse the winners of last year's Swoon Awards. Editor's Note: We've updated the list to be more inclusive and respectful of our readership's concerns. MORE FROM ASK.COM Nothing beats a good book, especially when you're stuck in line at the post office. Wattpad shoots books to your phone for anytime, anywhere reading.Wattpad maintains a community-built library of texts: novels, essays, joke collections and the like. You can also upload your own. There are several ways to get books onto your phone, including an app that enables direct downloads. You can also point your phone's browser to the Wattpad site, though to get books this way you have to input a code taken from the site. You can also shoot an SMS to your phone from the site; it'll contain a link for accessing the book from the mobile browser.Alas, I had trouble getting it to work with any of the three phones in my possession (though only one, a Motorola i855, appeared on Wattpad's compatibility list). Your mileage may vary (and if it does, tell us in the comments). This is a long-overdue service, so here's hoping Wattpad shakes out the bugs soon. Wattpad [via Download Squad] The world has shifted online, so it is no big surprise that writers have also found new digital platforms to create content that is engaging and interesting. Wattpad has emerged as a brilliant new reading destination. If you are in love with love stories, but don't want to order another book, you can now turn your mindless Insta scrolling into reading sessions with great romance writing! Here are some of the best Wattpad romance stories for those who just want to fall in love asap! 1. The Guy Next Door Image Credit: WattpadWho doesn't love a good guy/girl-next-door romance? If you're looking for a story with all the ups and downs of a good romance, then you've found it. A confused protagonist, two hot boys, and a sea of romantic escapades. Will Clara choose her high school sweetheart or the rich bad boy? You have to read to find out!You can read the story here.2. More Than Friends Image Credit: WattpadWhat good is a love story without plot twists, suspense, and surprises along the way? Starting off with a heartbreak, and ending up in love, the story is all about meeting new people and finding happiness together. This is a story for all romantics looking for steamy love out in the world. You can read the story here.3.
